SUMMARY

Dedicated Chemistry and Science Educator with 4 years of classroom teaching experience, having taught and impacted over 500+ students. Holds a Bachelor's in Chemical Education (GPA: 89.22 / 100) and achieved a top-tier National Teacher Recruitment (MİQ) score of 83.75 / 100. Proven track record in teacher leadership, having trained and mentored 20+ secondary school teachers through a nationally recognized, USAID-supported Project-Based Learning (PBL) curriculum initiative. Demonstrated academic excellence by guiding 50+ students to successful university admissions and mentoring pupils for national science competitions and Olympiads. Certified in IB World Schools modules (CCAAIBWS) with expertise in Inquiry-Based Learning, UDL/differentiated instruction, and advanced laboratory techniques (HPLC, titration, spectroscopy). Fluent in Azerbaijani and Turkish, with Upper-Intermediate English (IELTS 6.5) and working knowledge of German.

EDUCATION

Sep 2020 – Jul 2024

Bachelor of Science in Chemical Education | GPA: 89.22 / 100

Baku State University

- Core scientific coursework: Analytical, Physical, Organic, Inorganic Chemistry.
- Pedagogy and methodology: Chemistry Teaching Methodology, Educational Psychology, Curriculum Design, ICT.
- Laboratory and Practical Training: Spectroscopic methods (NMR and IR theory), chromatographic principles, acid-base, redox and complexometric titration, solution preparation.

EXPERIENCE

Sep 2024 – June 2026

Chemistry Teacher | Derejannet Village Full Secondary School, Sheki District

- Deliver chemistry lessons across 5 grade levels to 150 students, 10 teaching hours per week.
- Monitor, assess, and support students' academic progress in chemistry.
- Design and implement lesson plans aligned with national curriculum.
- Serving as a class mentor for a group of 20 students, providing academic guidance.

Oct 2022 – Jun 2023

Trainee Chemistry Teacher | "Hedef" Education Group

- Conducted individual and small-group chemistry sessions for 30 students.
- Collaborated with senior teachers to design lesson plans and classroom activities.
- Conducted supplementary and one-on-one chemistry lessons for students in need.

SCIENTIFIC TRAININGS AND CERTIFICATIONS

Empowering Educators Conference | ECIS

- Internationally recognized certificate focused on Universal Design, Inclusive Education, and EdTech, emphasizing innovative approaches to pedagogy, curriculum design, and inclusive learning environments suitable for advanced education settings.

IB World Schools Training Programme

- Four professional modules completed: Inclusive Classrooms and Differentiation Strategies, Designing Meaningful Summative Assessment, Digital Citizenship and AI in Education, ICT in the PYP from Caucasus and Central Asia Association of IB World Schools.
- Implemented inclusive teaching strategies, differentiated instruction, and AI-integrated tools directly in classroom settings.

Nanotechnology: A Maker's Course | Duke University

- Studied nanofabrication techniques, vacuum system design, and nanoscale materials behaviour through assessed modules.
- Completed knowledge assessments across all modules with above 85% - demonstrating solid grasp of core nanotechnology concepts.

Materials Science for Technological Applications Specialization | Arizona State University

- Built foundational knowledge in crystal structures, phase diagrams, mechanical and electrical properties, and nanomaterials - directly relevant to advanced materials research.

HPLC (High-Performance Liquid Chromatography) Training | Azerbaijan Engineers Association

- Acquired both theoretical knowledge and practical skills in HPLC techniques, including sample preparation, chromatographic analysis, and data interpretation, providing a strong foundation for laboratory-based research and analytical chemistry projects.

SOCIAL PROJECTS

Sep 2023 – Present

Volunteer Relations Specialist & Coordinator | *"One Volunteer" Student Cooperation Public Union and "Azerbaijan Science and Innovation Volunteers"*

- Contributed to the design and submission of grant proposals for science-focused initiatives; advanced to the semifinal stage of a competitive national funding program.
- Supported the full project lifecycle of research initiatives - from data collection and literature review to reporting and stakeholder presentations.
- Coordinated volunteer training programs and managed engagement workflows across multiple concurrent projects.
- Provided academic mentoring to 100+ undergraduate students in chemistry, including one-on-one tutoring, curriculum support, and research guidance over 2 years.

Mar 2022 – Mar 2024

Volunteer | *Regional Public Development Association*

- Assisted in organizing community events and projects, and provided guest coordination support.
- Acted as communication liaison between organisers and institutional representatives.

Apr 2023

Project Coordinator | *"Let No One Stay Unread" Project*

- Coordinated a USAID-supported educational initiative delivered to 20 secondary school teachers, focused on gender equality, and promoting educational access for girls.
- Led project planning and implementation, managed coordination, and supervised team collaboration.

May 2022

Volunteer | *"TEKNOFEST Azerbaijan"*

- Assisted science and technology project teams at exhibition stands, supporting direct engagement with national and international visitors.
- Facilitated communication between competing student teams and festival attendees across STEM disciplines.

Dec 2021 – Apr 2022

Volunteer | *Azerbaijan Science and Innovation Volunteers, Biology & Genetics Department*

- Participated in genetics-related trainings and contributed to organizing the "Cancer in Our Time" conference.
- Developed skills in academic literature search and research summarization through systematic review of scientific sources across databases Google Scholar, Scopus.

TECHNICAL & DIGITAL SKILLS

- Solution preparation (accurate measurement and dilution of chemicals)
- Titration techniques (acid-base, redox, and complexometric titrations)
- Operation and data interpretation of NMR spectroscopy
- Microsoft Excel (data analysis and graphing)
- Research databases: Google Scholar, ResearchGate, Scopus
- Microsoft Office (Word, PowerPoint), Canva, Notion
- Google Classroom, PhET, Padlet

LANGUAGES

- Azerbaijani – Native
- English – Upper-Intermediate (B2) - IELTS 6.5
- German – Intermediate (B1)
- Turkish – Advanced (C1)
